

WAVE 50

ABOUT WAVE 50

Wave Catamarans has risen to the challenge of creating a catamaran where comfort and a spacious living area - features hitherto associated with larger vessels - may now be found on a 50-foot yacht. The WAVE 50 offers an astonishing ratio of usable space to length, giving its users in excess of 160 m².

Thanks to Wave Catamarans Shipyard's wealth of experience, the WAVE 50 - a unique, state-of-the-art model - is not just a vision, it is now a reality. Its perfect synthesis, where wonderful design meets cutting edge and user-friendly energy solutions, guarantees the perfect conditions to find calm and comfort on the water.
